

Your AI-Powered Personal Board of Directors

Leaders have long relied on a “personal board of directors” for trusted advice. Now, Generative AI allows them to create virtual advisory boards by simulating conversations with diverse personas, augmenting human wisdom with on-demand, varied cognitive input for today’s complex challenges.

THE HYBRID BOARDROOM: AI + HUMAN INSIGHT

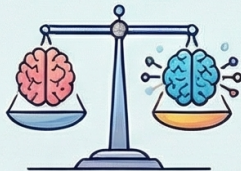

An on-demand advisory council of AI personas.

Simulate conversations with diverse thinkers to challenge your assumptions and broaden perspectives.

A Hybrid Model, Not a Replacement

Complements human advisors' trust and depth with AI's breadth, speed, and availability.

Embody Radically Different Worldviews

Get instant advice from a virtual Steve Jobs, Nelson Mandela, or Sun Tau.

KEY BENEFITS OF AN AI-AUGMENTED BOARD

Enhance Decision Quality & Agility

Systematically identify blind spots and rapidly test multiple strategic scenarios before committing.

Overcome Human Network Limitations

Access diverse cognitive styles beyond your immediate circle, 24/7 with zero friction.

Creates Psychological Safety

Explore bold or unconventional ideas without political risk or reputational consequences.

4 STEPS TO BUILD YOUR VIRTUAL BOARD

- 1. Select Your Personas Intentionally**
Choose 3-8 advisors based on your needs (e.g., visionary, operator, ethicist).

- 2. Use Structured Prompts for Quality Input**
Frame questions with specific context to get nuanced, persons-consistent advice.

- 3. Integrate with Your Human Network**

Use AI for divergent thinking; use trusted human advisors for convergent decisions.

- 4. Evolve Your Board & Maintain Discernment**
Rotate personas as needs change and always apply critical human judgment.
