Innovation: The Journal of Knowledge Work, Creativity, and Organizational Advancement is pleased to announce an ongoing call for submissions. *Innovation* is a multidisciplinary academic publication dedicated to advancing understanding of how organizations generate, share, and apply new ideas.

Our mission is to bridge creativity research and organizational practice by connecting researchers, innovation leaders, entrepreneurs, designers, and knowledge workers in their efforts to turn insight and imagination into lasting organizational value.

We welcome a wide range of submission types, including:

- Original research articles
- Review articles
- Literature reviews
- Research notes
- White papers
- Commentaries
- Case studies
- Industry analyses
- Innovation frameworks and methods

Innovation prioritizes work that demonstrates how the conditions for innovation—creative climate, knowledge sharing, cross-functional collaboration, experimentation, and human-AI co-creation—lead to new products, processes, services, and business models that advance organizational performance. Our aim is to provide a publishing space that illuminates how ideas move from initial spark to sustained value, and how organizations can make that journey more deliberate and repeatable.

Through collaborative, cross-disciplinary approaches, *Innovation* amplifies scholarship that transforms how organizations organize knowledge work, nurture creativity, and adapt in rapidly changing markets. We welcome submissions from researchers, educators, and practitioners across management, entrepreneurship, design, creativity research, knowledge management, information systems, and related fields.
