

Call for Submissions

AI Strategy: The Journal of Organizational AI Implementation, Transformation, and Competitive Advantage

HCI Academic Press

AI Strategy: The Journal of Organizational AI Implementation, Transformation, and Competitive Advantage is pleased to announce an ongoing call for submissions. *AI Strategy* is a multidisciplinary academic publication dedicated to advancing evidence-based approaches to the strategic adoption, implementation, and governance of artificial intelligence in organizations.

Our mission is to bridge technical capability and organizational strategy by connecting researchers, executives, technology leaders, human resource and change practitioners, and policymakers in their efforts to translate AI investments into sustainable organizational value.

We welcome a wide range of submission types, including:

- Original research articles
- Review articles
- Literature reviews
- Research notes
- White papers
- Commentaries
- Case studies
- Implementation frameworks
- AI readiness and maturity assessments

AI Strategy prioritizes work that demonstrates how deliberate AI strategy—leadership alignment, data and technology infrastructure, workforce reskilling, process redesign, and responsible governance—leads to measurable transformation and durable competitive advantage. Our aim is to provide a publishing space that moves beyond hype and isolated pilot projects toward a rigorous understanding of what makes organizational AI adoption succeed or fail.

Through collaborative, cross-functional approaches, *AI Strategy* amplifies scholarship that transforms how organizations plan, deploy, and scale AI while keeping people at the center of change. We welcome submissions from researchers, educators, and practitioners across strategic management, information systems, human resource management, operations, organizational behavior, and related fields.

Submission Guidelines

AI Strategy accepts submissions on a rolling basis, and accepted articles are published open access. All submissions undergo a rigorous double-blind peer review process.

Detailed submission guidelines, including directions and the link for submitting your manuscript, are available at www.innovativehumancapital.com/submission-guidelines.

For any questions, please contact the Editor-in-Chief, Dr. Jonathan H. Westover, at jonathan.westover@innovativehumancapital.com.

We look forward to receiving your submissions and to publishing scholarship that advances the strategic adoption, implementation, and governance of AI in organizations.
